APPEAL FOR GOOD ROADS

Abandoned Suburban Thoroughfares in Need of Repair.

CITIZENS SEEKING RELIEF

Street Extension Plans Interfere With Proper Care of Roads, and Congress Will Be Asked to Interpose—Rejection of Tenleytown Railway's Application—Water Mains.

Under the plans of street extensions now under consideration, and according to the terms of the legislation affecting them, many suburban roads have been abandoned, and there is no provision for keeping them in repair pending the completion of the street system.

It was a part of the argument made in behalf of the measure for street extensions that these roads would be taken off the expense list until the streets could be located and regularly taken up again.

The citizens who have made investments along the line of the abandoned roads find themselves very seriously inconvenienced by the present condition of affairs. They receive no benefit in the way of street improvements from their taxes, and the roads are in many instances becoming almost impassable.

Meetings are being held with a view to making an appeal to Congress, through the Commissioners, for relief. It will be shown that great injustice results from the present policy, and the law-makers will be asked to amend the law so as to permit the roads to be kept in repair until they are merged in the street system.

It is not intended, so far as can be ascertained, that the Commissioners shall be asked to second the movement, nor in any way compromise the extension plans, but they will undoubtedly be requested to interpose objections to what the interested property holders may do in the premises.

B. & O. WINS A POINT.
The Commissioners have notified Secretary H. T. Purdy of the Georgetown and Tenleytown Railway Company of their disapproval of the application of the company to occupy Water street, in Georgetown, with railway tracks. This leaves the B. & O. Company in possession of the disputed ground.

It is not known by what means the former company hopes to accomplish the desired extension to the river front. It cannot proceed by way of right-of-way, on account of the location of the bathhouse of Columbia Athletic Club, which bars its progress, and while there is no doubt of the company's right to cross Water street, there is no opening beyond.

It is the desire of the Tenleytown management to connect with a steamboat service at the wharf, so that goods may be transferred to and received from the boats direct.

Mr. J. C. Olmsted, of the firm of Olmsted & Kelly, landscape architects, has a conference yesterday with Engineer Commissioner Powell with respect to the street extension plans in that section of Rock Creek.

It is confidently believed that by January 15, 1896, the second stage of the first section, and that the third section will be well advanced.

WATER MAINS AND SEWERS.
It was ordered by the Commissioners yesterday that a number of water mains assessments be cancelled on account of the court decision in the Dargoff case.

Also, that an allotment of \$40,000 from the water fund for the extension of the high service system of water distribution, be approved.

That 592.59 feet of 6-inch water main, including one fire hydrant, be laid in Sheridan street, east of Brightwood avenue.

That 820 feet of 6-inch water main be laid in Lydecker avenue, between Holmead avenue and Thirtieth street north-west, and 36 feet of 8-inch sewer be constructed in alley of square 942.

That sewers be constructed when funds became available, in Thirtieth street, between Georgia avenue and D street south-east, in D street, between Fifteenth and Seventeenth streets southeast, in alleys of square 1075.

That a sewer be laid in the south side of N street northwest, between Twenty-seventh and Twenty-eighth streets.

That the public well at the corner of First and F streets southeast, be closed.

Dr. L. W. Ritchie obtained a permit yesterday for the construction of seven buildings, to be occupied as stores and residence flats at Nos. 3322 to 3334, inclusive, southwest, to cost \$22,000.

FIRE DEPARTMENT CHANGES.
By order of the Commissioners and upon the recommendation of Chief Harris, Probationary Private C. F. Beers, of the fire department, was yesterday promoted to the list of regulars, he having served a satisfactory term on the temporary roll.

It was also ordered that Probationary Private M. P. Dwyer be promoted, and that De Witt Smith be appointed to succeed him.

The Board of Trade was represented in a conference with the District Commissioners yesterday by Messrs. Thomas W. Smith, C. C. Glover, and S. W. Woodward.

The subject under discussion was future sewerage, and the committee obtained a statement of the Commissioners' views of their probable recommendations to Congress, which will be presented to the board in a report to be made at an early meeting.

Inspector of Buildings John B. Brady will represent the District at the annual convention of the National Association of Commissioners, which is to be held in Baltimore on the 15th instant.

ARRESTED FOR FRAUD.
Horse Trader Charged With Changing Animals on a Purchase.

Toney West, a cattle broker, thirty-six years old, was arrested last evening by policeman Sears of the First precinct, on a warrant issued by Philip Iverson, charging him with obtaining money under false pretenses.

To-day we will give Three Pounds of Best Granulated Sugar to every purchaser of One Dollar's worth or over from this price list.

JOHNSTONS, 729-731 7th St.

THIS DIOCESE DIVIDED

Bishops Concur in Resolutions Adopted by the House.

Another Day Passed by the Episcopal Convention in Considering the Revision of the Constitution.

Minneapolis, Minn., Oct. 8.—It was with some anxiety that the Episcopal house of deputies of the general convention, which is in session at the University of Minnesota, met yesterday for the revision of the constitution for a while to-day to take up a few crumbs of still another revision of the revision that had fallen from the bishops' table.

The fathers of the church themselves, probably not anxious to be forestalled or unwilling to allow the lower house to get very far into its work without their own views and ideas, foreign to the outside world, had been doing a little revising on their own account for a couple of days, and the results were apparent in the messages presented with courtesy by Secretary Hart.

The bishops preferred the term "general convention" to "synod," and the term "general assembly" to "synod," both suggestions being in a line with those already approved by the house. They also favored the title of "primate" for the new presiding officer, recommended that retired bishops be given a seat in the house, and proposed a new title to the constitution.

Such of the various amendments as the house had not already approved, provoked a debate that covered two sessions, but the bishops had their way right through and only the arrival of the hour for adjournment prevented the adding of the word "primate" to the minutes of the day.

Just before the delegates dispersed, the house of bishops announced concurrence in the resolutions dividing the diocese of California, Maryland and Kentucky.

POISONED HIS SYSTEM.

Mr. Gardner G. Griswold Died From Inhabiting Illuminating Gas.

Mr. Gardner G. Griswold, of No. 1408 Bacon street, Mount Pleasant, who was found in his bed early Monday morning, unconscious from the effects of escaping gas, an exclusive statement in yesterday's Morning Times, died at 10:30 o'clock yesterday morning. His death was directly due to the poison from the gas, which had entered his system while he was sleeping.

Mr. Griswold retired about 8 o'clock Sunday evening, and forgetting that the electrical extinguisher on the gas jet was out of order, used it to shut off the light.

He was discovered the next morning by his daughter, and Dr. M. T. Harding, who resides at the corner of Fifteenth street and Columbia road, was summoned. He called Dr. Caldwell in consultation and the two worked over the old gentleman, but were unable to restore him to consciousness.

Mr. Griswold was eighty-one years old and was a member of the Episcopal church. He was a distinguished family, being a lineal descendant of Matthew Griswold, governor of Connecticut. He was a widower and resided with his son and daughter. For twenty years, up to a short time ago, he was employed in the Sixth Auditor's office. Preparations for the funeral will be completed to-day.

BIKE-CLIMB YEATMAN KILLED.

Accidentally Shot Himself While Hunting—His Remains Found Here.

The remains of Edward C. Yeatman, a well-known amateur bicyclist of this city, who accidentally shot himself while on a hunting trip near Charleston, W. Va., as told in yesterday's Evening Times, will be brought here to-day and taken to the residence of his father, at No. 1121 Sixth street northwest.

Yeatman was twenty-two years old, and one of the most popular amateur riders in the city. He was a member of the Washington Road Club, and was employed by Gormully & Jeffrey, the bicycle agents. He left here last April, going to Charleston, where he associated himself with J. H. Bowman and formed the Charleston C. C. Company.

Yeatman's last race took place about six weeks ago, when he was matched to ride against a Charleston amateur. The course was twenty-five miles, and Yeatman won, making the distance in one hour and five minutes. He lowered the twenty-four hour record, making 330 3/4 miles in that time, beating L. C. Wall and John J. Pister, and last spring won the ten mile race from Class A men in Baltimore.

Preparations for the funeral will be completed as soon as the body arrives. Yeatman was a member of the Navy Bay Baptist Church, and the services will be held there. A number of prominent local riders will be selected as pall bearers.

The ministers of the faith would while hunting about sixteen miles from Charleston. He had climbed on a rock, and when attempting to draw his gun up after him it was discharged. The loud shattered his hand and lodged in his left breast. He died two hours later.

Found Guilty a Second Time.
Genesee, N. Y., Oct. 8.—Rev. Charles Flanery, the Mount Morris priest who has been on trial the second time for the alleged assault upon Mary Sweeney, a member of his church, was to-night found guilty by the jury. Sentence was suspended until to-morrow, when an appeal for a new trial will be made.

Stole Clothing from a Shoe Store.
Two cutaway coats, one vest, and one mackintosh, valued at \$63, were stolen from Stoll's shoe store, No. 810 Seventh street northwest yesterday afternoon by an unknown negro. The robbery was reported to Policeman McDaniel, of the First precinct, and he was furnished with a description of the thief.

Read Pyle's Grocery Advertisement.

OWEN WANTED A PAPA.

Although an Adult, He Applied at the White House to Be Adopted.

Owen Jones, crazy and from New York, was arrested yesterday afternoon by the police of the Third precinct and locked up at the station-house, to be examined as to his mental condition.

Jones called at the White House yesterday, taking with him a poem addressed to the executive family wanted a boy, and asked to be adopted.

His errand was to offer himself for adoption or employment, in whatever capacity the boy was "wanted." He accompanied his request with a letter stating that he could wash dishes and do general housework in great shape.

Owen's face was familiar to one of the doorkeepers, however, to whom he had written a threatening letter on a former occasion, and he was turned over to the police.

WOULD NOT INTERFERE.
Cincinnati's Mayor Refuses to Stop Boxing Contests.

Cincinnati, Oct. 8.—Charles Burns and Ed. Beemer fought a ten-round contest before the Olympic Club to-night. Both men weighed in at 135 pounds. Burns was given the decision at the end of the tenth round. He out-punched Beemer in every way. No hard fighting or knock downs occurred.

The ministers of the city visited Mayor Caldwell this morning and asked him to stop boxing contests, but he refused to interfere.

BEGINNING UPON A CHANGE.
Spain Dreads Agitation in This Country.

Madrid, Oct. 8.—Steamers at Cadiz are being made ready for the transportation of reinforcements for the Spanish army in Cuba. All the fresh troops will be dispatched by November 15th. It is expected that a powerful squadron will be sent to reinforce the fleet in Cuban waters.

Popular opinion is beginning to fear a change in the relations between Spain and the United States in consequence of the agitation in the latter country in favor of the Cuban insurgents.

Reactionary Revolt in Cuba.
